## LONG SESSION OF COUNCIL HELD MONDAY

Lasted Till Long Past Midnight  
—Clay Products Spur Takes  
Up much time and is finally  
referred to Solicitor for  
Investigation.

There were a lot of tired and sleepy town councillors, although all reported before the regular meeting of the town council last night. The regular meeting was held at 8 o'clock and the session was very much delayed by the arrival of the late train. The session was held at 8 o'clock and the session was very much delayed by the arrival of the late train.

Although this was one of the longest meetings and for some time there was very little business of importance to report.

Mayor Scott occupied the chair and Councilors Lyndall, Stewart, Leavins and Davidson were present. After the minutes of the previous regular meeting were read and approved, Mayor Scott presented a report from the Clay Products company. The report was read and the council decided to refer the matter to the solicitor for investigation.

The Mayor and several of the Councilors expressed themselves as greatly pleased with the efforts put forth by the Clay Products company. The council decided to refer the matter to the solicitor for investigation.

Chief Dunnett submitted his monthly report. The collecting of licenses was the principal matter dealt with in the report. It showed that in all \$721.00 had been collected from this source, \$107.00 of which was for dog tags. With one exception all the licenses had been paid in and in this case the chief was instructed to prosecute the delinquent if the bylaw were not complied with at once.

Councillor Howard, chairman of the finance committee, then submitted the estimates for the year as presented from the various departments. They were as follows:

Public Works	1,860.00
Fire and Light	3,285.00
Parks and Recreation	500.00
Cemetery	400.00
Police	22,000.00
Health	4,300.00
Water	28,974.54
Total	\$62,135.47
Estimate from School	25,000.00

Grand Total \$87,135.47  
At the Council's last meeting the town council decided to refer the matter to the solicitor for investigation.

The assessment roll as passed by the council of revision was confirmed on motion of Councillor Lyndall and Leavins. It was decided to place \$50,000 insurance on the pumping station and plant, \$4,000 to be placed with the Storer. Agencies and \$3,500 with Wm. Henderson.

On motion of Councillors Howard

## Wrestling Match Here Next Friday

Arrangements have been made to give a wrestling and wrestling exhibition in Reid's hall on Friday evening, March 22nd. The preliminary bouts will be between the two Lader boys of Redicraft, Alberta. These lads put up a good exhibition of the mat art and are well worth seeing. There will also be an exhibition given by two Redicraft men who in days gone by were prominent stars in the heavyweight class. This in itself promises to be worth the price of admission.

The event of the evening will be a wrestling match between J. Hens and W. Leathers. In this Hens contracts to throw Leathers twice inside of an hour. Both contestants are old hands in the game and promise to put up a good argument. As both are old friends the match will be friendly and devoid of all ruff stuff. Hens has considerable advantage in weight in giving Leathers the advantage by agreeing to throw him twice in the specified time.

Besides these sporting events there will also be musical selections between the band and the second set of the program will be a dance for which good music will be provided.

A percentage of the proceeds will go to the Great War Veterans association. Tickets may be secured at Mac's Cigar Store.

## Some Changes Made In School Ordinances

The varied question of the cost of education of non-resident high school pupils has been solved by legislation brought into the legislature by the minister of education. In this act the school district from which the non-resident pupil in high school must pay 10 cents per day towards the education of the pupil and the government will supplement this by an equal sum, which amounts to a little over \$40 per year, per pupil.

This is somewhat less than the cost of education, but will mean about \$30.00 annually to the Calgary school board of the province.

This is not the only interesting feature in the amendments to the school ordinances. The department has decided upon a minimum salary of \$90 per month. This applies only to ungraded schools. There is provision that the inspector of schools may authorize a bonus salary to be paid where it might be a hardship to the district.

Perhaps most important of all is the clause which provides that every school district shall employ at least one medical doctor to inspect schools in the district at least once during each school term.

## Red Cross Makes Good Shipment

The following shipment was made from the local Red Cross room this week:

Palms, 54 pair; dry shirts, one dozen; Wash cloths, three dozen; socks, 54 pair; handkerchiefs, 19 dozen; bath towels, seven dozen; T knickerbockers, three dozen; towels, 25 dozen; pillow slips, 19 dozen; wringers, two dozen; men's tail bandages, two dozen; triangulars, 11.

## CHURCH NOTICES

**CATHOLIC CHURCH.**  
Catholic service will be held on the second Sunday of each month until Easter.

**THE PRESBYTERIAN CHURCH.**  
Devotional worship at half past ten, forenoon, of devotion, and at half past seven evening. Forenoon discourses "God's Battle Axe."

The Ladies' Aid meets on Thursday at three o'clock with Mrs. R. S. Edge as Mr. A. W. Woodcock's, on Fifth street.

**FIRST BAPTIST CHURCH.**  
Sunday morning at 11 a. m.; subject "Samson's Hair-Cutting." Sunday school at 12 noon. Tuesday—Prayer and conference at 8 p. m.

**Thursday—Ladies' Aid at 2:30 p. m.**

## Canada Goes Dry After April 1st

Canada virtually goes dry on April 1st, under regulations, issued last Monday. The manufacture of intoxicating liquor is prohibited from that date. It is provided, however, that "in the sale of intoxicating liquor of any class for beverage purposes is permitted in any province this regulation shall not apply to the manufacture of such intoxicating liquor in such province until Dec. 31, 1918."

The order-in-council authorizing the regulations recites that prohibiting laws have been passed and are in force in every province, except in the province of Quebec where the prohibition is to go into effect on April 1, 1918. It is in order to make such legislation more effective, the order-in-council states, that regulations have been enacted to supplement the provincial laws.

## Red Cross Makes Good Shipment

The following shipment was made from the local Red Cross room this week:

Palms, 54 pair; dry shirts, one dozen; Wash cloths, three dozen; socks, 54 pair; handkerchiefs, 19 dozen; bath towels, seven dozen; T knickerbockers, three dozen; towels, 25 dozen; pillow slips, 19 dozen; wringers, two dozen; men's tail bandages, two dozen; triangulars, 11.

## U.S. Papers Cannot Publish Casualties

Insistence of daily lists of casualties among the United States expeditionary forces abroad was discontinued by the Public Information committee as the result of an order of the War Department under which the names of the next of kin and emergency addresses of soldiers whose names appear on the lists hereafter will be withheld. The official explanation is that the purpose of the order is to keep information of value from the enemy.

## Machine Gun Famine Is Now Over

M. R. Browning, past owner of the patent on the Browning machine gun plant in the United States, says the machine gun famine is over and that he will be 1875 of these guns in the hands of soldiers before the end of the summer and in a couple of months six large factories, now ready to start operations, will be turning out several thousand a day, he said.

## Retail Grocers Must Have License

The Canada Food Board has issued a new order-in-council passed which says that on and after the first day of May, 1918, no person, firm or corporation shall sell or deal in food or food products, which are regarded as necessary for household consumption and commonly designated under the heading of groceries, without having first obtained a license from the Canada Food Board, such license to be known as a Retail Grocer's License.

Class of the order says that the license shall place on every retailer, head, contract, order, acceptance or contract, invoice, price list and quotation the words, "Canada Food Board License Number" followed by the number of the license, and shall also show the name of the licensee or licensee under which business is carried on.

## New Regulations For the Homesteader

As a result of the scarcity of farm laborers, certain privileges last year to homesteaders have been removed. Regulations enacted by order-in-council provide that "during the remainder of the year 1918 the holders of homestead pre-emption or purchased homestead entries who are employed as farm laborers within the Dominion of Canada shall be allowed the partial of such employment as part of the required period of residence in connection with their respective entries."

Prisoners	3.70
Hard Time Dance	85.50
Rolling Mills	238.87
	\$653.51

## German Socialists Attack Peace Treaty

The German Socialists have bitterly attacked the peace treaty with Russia. In a debate in the Reichstag there were charges that Germany and Austria already are quarrelling over the spoils of the war and that the real truth of the situation in the east is being kept from the German public.

The German ultimatum is not calculated to create conditions of peace and friendship with Russia," Herr Voghter declared. "In the cause of the peace treaty, Germany and Austria are warring over the body. The war we now are waging on defenseless Russia serves only the purposes of the dispirited treaty."

"In Lithuania we have made no moral conquests," The Lithuanian hour to be back in Russia. "We are not allowed to know the truth. The fatherland party is propagating a bloodthirsty propaganda against foreign countries. We are sold body and soul to the military caste. We are pursuing an infamous war policy."

## Japan Asked to Intervene in Siberia

A special cable from Tokyo says: "Foreign Minister Motono was waited upon by the British and French ambassadors at the foreign office, when they formally asked for the intervention of Japan in Siberia. Motono declared that America will not object to the sending of Japanese troops to Siberia."

"Ambassador Ishii, recently appointed to Washington, will leave for the United States sometime in April."

## THE WOMEN RESPOND TO CALL FOR HELP

Red Cross Work Now Greatly Increased as Result—Will Organize Junior Branch in Town—Mrs. R. R. Stoner is Superintendent.

As a result of the call made throughout the Review for more Red Cross workers, additional comforts are now being turned out in much larger quantities than ever before at the local branch headquarters.

This was the good news conveyed to the executive at their regular meeting last Tuesday afternoon by the superintendent of the work. As a result the cutters have been kept busy and during the past two weeks the shipments have increased over one hundred per cent.

The treasurer's report also showed the finances of the branch to be in a satisfactory condition. Although \$400 was sent to the local organization last month, and provision made for the payment of \$300 worth of goods this month, yet the society was able to vote another \$100 to the head organization last Tuesday.

The following is the treasurer's report:

RECEIPTS.	
Balance Feb. 12th	\$74.00
House of Commons	12.75
Prisoners	3.70
Hard Time Dance	85.50
Rolling Mills	238.87

## Another Air Raid Over English Coast

Three Zeppelins took part in an air raid over the English coast last Tuesday night. One of them dropped four bombs on Hull.

The other airships flew about aimlessly over country districts, dropping bombs, and then proceeded back to base. One of them dropped a bomb in consequence of the raid.

## Bacon Supplies Piling up in Canada

According to a dispatch from Edmonton, Hon. Duncan Marshall, minister of agriculture, speaking in the legislature, made the statement that the reason the Dominion government is not absolutely prohibiting the sale of bacon in Canada, was because the supplies of that commodity were piling up in the Dominion due to the inability of France to provide funds to purchase them.

Mr. Marshall asserted he had it on the authority of Hon. C. A. Dunning that France was willing to buy a hundred and forty million pounds of bacon from Canada, but because Canada was unable to finance the transaction and the United States would not loan the money to this country, because it was anxious of first disposing of its own bacon.

## ONE WAY TO GET IT.

At the regular meeting of the town council last Monday evening a delegation from the band waited on the council and asked the town fathers to provide them with a band stand for use during the summer months.

Every member of the council was anxious to help the band so far as possible, but under present conditions when every effort is being strained by the finance committee to take care of present obligations it would be unwise and unfair for the band or any other organization or individual to undertake any additional expenditure which was not absolutely necessary.

We do not know what the council will do in the matter. They promised to give it their consideration. But even though they cannot see their way clear to making the necessary grant it does not necessarily mean that the band can't have a band stand. There are more ways of killing a cat than by drowning it, and so are there more ways of getting a band stand than by having the council build it. Here is one other way: First let the band and some of our business men set about to raise funds for purchasing the necessary lumber. This could be done by the band giving another concert in one of the theatres. Another concert could be given by local talent a few weeks later. If the required amount was not yet in sight there are other ways by which the difference could be made up. With the lumber accounted for the rest would be easy. Have it delivered to the lot where the stand is to be located. Then get Donald MacLachlan and about a dozen other men who are handy with a hammer, saw and paint brush to visit the scene of action for two or three evenings and the first thing we'd know we'd have a band stand.

This may seem to some a crude and extraordinary way of getting a band stand. But these are extraordinary times when everyone has to put his shoulder to the wheel to keep things moving. After the band stand is built and open air concerts are in order a collection might be taken up at each concert for the purpose of expenses. If there is a deficit at the end of the season then if the town's finances are in better shape the council might be asked to make up that deficit.

## UP TO LOCAL MEMBER.

According to reports of proceedings in the local legislature an effort is to be made to get as much of the vacant land in the province as possible under cultivation this spring. In discussing the proposition before the legislature the premier said that in the campaign the first leader in every district should be the member of the legislature for that district. In addressing the members he said: "Your duty is plain. It is definite and cannot be shifted. It is to go to your constituency and do everything in your power to help in this campaign."

It is hoped that Capt. C. S. Pingle will keep in mind that he represents Redcliff constituency in the legislature. If he does he should be a busy man during seeding operations. He has good big field to start on right here at the front door to his constituency.

WORK FOR SCOUTS.  
Now that there is a big increase in the work being done by the Red Cross in town there is also additional work for the officers in charge of giving out this work and attending to the getting in of it. A good suggestion was made to us the other day and if acted upon it would be a great help to the ladies who are giving so much of their time for the cause.

The suggestion was that the services of the Boy Scouts should be secured. In the past a few of the Scouts have volunteered their services but the ladies feel they are imposing on good nature in asking them to do this work week after week. If all the Scouts were divided into companies of four, each quartette could be responsible for one week in which they could attend the Red Cross meeting to do the running about and help pack and ship the boxes.

This would be a great help to the ladies, besides giving the boys an opportunity to do their bit in the great conflict.

The two ladies in the legislature and some of the non-partisan leaders refused to vote at all on a measure brought before the legislature this week. By doing so they evidently thought they were showing their independence. In reality they were doing the very opposite. They should have had an opinion of their own in the matter before the house and have been prepared to vote either for or against it. That's what their constituents elected them to do. Refusing to vote on a measure does not relieve a member from blame if it be a failure nor does it entitle him or her to credit if it is a success.

At this time when everybody is being advised to conserve food-stuffs the announcement that a cold storage plant in Winnipeg was forced to destroy 500 pounds of chicken because they were kept so long as to be unfit for human consumption, is enough to make one sick. For some time previous to this the wholesale price for chicken in Winnipeg was 28c a pound but the greedy war profiteers were holding out for bigger profits. It is at least a little comforting to know that the chickens were mortified at the thought of it.

The department of finance in the Dominion government has an advertisement in this issue drawing attention to the income tax act recently passed by the federal government. As this is a matter which will concern almost every employer and employee in town we would strongly advise a careful perusal of the advertisement, as failure to comply with the requirements of the act makes one liable for a heavy fine.

A few weeks ago we were told that owing to her many troubles the former Czarina of Russia had lost her reason. Later the report comes that Kaiser William promises to make Russia a monarchy again and place the said Czarina on the throne. The Kaiser appears to be at least willing to place all European monarchs on the same footing.

Now is the time to plan your garden for next spring. Get ready to beat the Kaiser with a spade and a few packs of seed. Your labor bit this year. Be a bumsire and not a burden to a hungry world.

CANADA

# Income Tax Forms

Are now available

Returns must be filed on or before 31st March

**T**HE Dominion Income War Tax Act requires you to fill in one or more of the five special Forms provided before 31st March, 1918. In order to assist the public to understand just what is required of them information on each Form is given below. Read carefully, then get three copies of the form that fits your case and fill them in. Answer all questions fully and accurately. For making false statements, a penalty of \$10,000 or six months' imprisonment, or both, is provided.

**Individuals.**—All persons unmarried, and all widows or widowers without dependent children, whose income is \$1500 a year or more, must fill in Form T1. All other persons whose income is \$3000 or more, use the same Form. Where any income is derived from dividends, all amounts received from Canadian and Foreign securities separately. Fill in pages 1, 2 and 3 only. Do not mark on page 4. Partnership, as such need not file returns, but the individuals forming the partnership must.

**Corporations and Joint Stock Companies.**—no matter how created or organized, shall pay the normal tax on income exceeding \$5000. Use Form T2—filling particulars of income. Also attach a financial statement. Under Deductions show in detail amounts paid to Patriotic Fund and Canadian Red Cross or other approved War Funds.

**Trustees, Executors, Administrators of Estates and Assignees** use Form T3. Full particulars of the distribution of income from all estates handled must be shown as well as details of amounts distributed. A separate Form must be filled in for each estate.

**Employers** must use Form T4 to give names and amounts of salaries, bonuses, commissions and other remuneration paid to all employees during 1917 where such remuneration amounted in the aggregate to \$100 or over.

**Corporations Lists of Shareholders.**—On Form T5 corporations shall give a statement of all bonuses, and dividends paid to Shareholders residing in Canada during 1917 stating to whom paid, and the amount of each.

Figures in every case are to cover 1917 Income—all Forms must be filed by 31st March. For neglect, a fine of \$100 for each day of default may be imposed.

In the case of Form T3, keep one copy of the Form T3 and file the other two with the Inspector of Taxation for your District. In the case of T3, T4 and T5, keep one copy and file the other two with the District Inspector of Taxation.

Forms may be obtained from the District Inspectors of Taxation and from the Post-masters at all leading centres.

Forms must be paid on all letters and documents forwarded by mail to Inspector of Taxation.

Department of Finance,  
Ottawa, Canada

## Inspector of Taxation, Thorburn Allan, Customs Building, Calgary, Alberta.

### Useful Articles Made

#### From Flax Fibre

Some enterprising farmers in Saskatchewan, assisted by the provincial government, have been experimenting with flax fibre to see if it is commercially viable to use it for the making of paper. Experiments so far have shown that flax fibre is a much better material than a number of useful articles can be produced could be manufactured. The proof of this was recently demonstrated at an exhibition held for the specific purpose in Regina, at which fifty different articles were shown. There were yarns ready for weaving into sackings, burlaps and heavy twillings; commercial tissues having a wholesale value of 10 to 25 cents a pound, and binder twines, three-ply spun, giving 760 to 900 feet to the pound, with a breaking strain of 60 and 50 pounds, respectively. Actual tests in the field have shown 99 per cent of well-bound sheaves. A comparative test made with wheat twine on the same binder gave results inferior to that of the article made from flax fibre.

Other western provinces will watch with keen interest any further development along this line and it might be a good idea if they would lend their assistance, financial and otherwise, in making through experiments.

### Legislature Wants

#### Duty of Implements

"Whereas, the legislature recognizes the supreme necessity for the production of foodstuffs during the years 1918 and 1919; and, whereas, we believe that every farmer and employee in town we would strongly advise a careful perusal of the advertisement, as failure to comply with the requirements of the act makes one liable for a heavy fine.

A few weeks ago we were told that owing to her many troubles the former Czarina of Russia had lost her reason. Later the report comes that Kaiser William promises to make Russia a monarchy again and place the said Czarina on the throne. The Kaiser appears to be at least willing to place all European monarchs on the same footing.

Now is the time to plan your garden for next spring. Get ready to beat the Kaiser with a spade and a few packs of seed. Your labor bit this year. Be a bumsire and not a burden to a hungry world.

### BAKERS HINGING

#### FOOD CONTROLLER

The bakers of Canada are co-operating with the Food Controller in an effort to bring about a saving in the consumption of wheat flour in the Dominion, so that larger quantities may be released for export to the allies overseas. At the annual meeting of the Ontario Bakers and Confectioners' Association held in Toronto last night, Professor R. Harcourt, head of the Department of Chemistry, Ontario Agricultural College, Guelph, represented the Food Controller. The bakers expressed their willingness to do anything in their power to help in the attainment of the Food Controller's objects. A committee was appointed to draft resolutions outlining the views of the association.

### Graduated War

#### Tax on Incomes

If the income war tax law, about to be applied, did nothing more than secure a national state it would serve a most useful purpose.

The taking of an inventory of one's resources invariably induces a desire to save and a desire to save, translated, as it very frequently is, into a determination to save, means getting on with the war, as well as prospering all around. This process, first an inventory of one's resources, then a desire to save, applied to every unmarried person or widower without dependent children receiving an income of \$1,000 and over, and to all other persons receiving an income of \$2,000 or over, will unquestionably result in a large proportion of cases, in a determination to save. And that means more general prosperity and renewed national strength.

But a national stock-taking is only incidental, of course, to the chief purpose of the income war tax, which is to provide revenue for the prosecution of the war in an equitable manner as possible. The tax is to be graduated, according to one's ability to pay.

Moreover, the purpose of the act is to distribute the burden equitably among all classes. By way of illustration, the farmer will be required to add to the value of the actual income, the value of the home-grown products which he or his family consumes. It places the farmer on a plane with the salaried man, the value of which income is wholly represented in the goods received and against which he must charge all his living expenses.

Canada has established a war record that is the envy of the world. It can be certain that the Canadian people will turn to form in answer to this latest call of their war government.

The American secretary of war, Newton D. Baker, has arrived at a French port.

### Rules Governing

#### Junior Red Cross

Since it is the intention to form a junior branch of the Red Cross Society in town we have been asked to publish the following rules under which this branch of the work will be conducted. They are as follows:

Dear Mrs. Suberland: I beg to acknowledge receipt of your letter of the 28th ult., and the following is the rule for junior branches:

"That the sub-executive committee of the Alberta Provincial branch authorize the establishment of Junior branches among the local branches of the society, throughout the province. Such Junior branches shall consist of persons of the age of 15 years or under. The annual fee to be 25c. A Junior branch to be an auxiliary to the local branch and to work under its direction, the rules to be the same as those governing the local branches. Such local branch shall appoint a superintendent of its Junior branch, such superintendent to be a member of the local branch; members of Junior branches shall not have any vote in the proceedings of the local branch, but under the directions of the local branch and of the superintendent of the Junior branch, to regulate and manage their own affairs.

We are glad to note that your young people are showing an interest in the work of our society and trust, should they decide to form this branch that they will have every success. As we have very few Junior branches we are sorry to have to tell you that we have no membership cards to give them. With kindest regards, I remain, Yours faithfully,

MARY PINKHAM,  
Honorary Treasurer and Joint Secretary Alberta Provincial Branch.

### JAPAN MISSION TO STUDY

#### MOBILIZATION METHODS

Bearing personal dispatches from the emperor of Japan to President Wilson, a Japanese military mission headed by Lieut.-Gen. K. Chikashi, arrived at a Pacific port to study industrial mobilization in America. The mission was entertained at the Japanese consulate. It will leave for Washington in a few days.

### HUNS START CONQUEST

#### ON FINLAND NOW

The expected landing of German troops in Finland is reported to have been effected in the neighborhood of Ahu, a Finnish port opposite the Aland Islands, and 100 miles west of Helsinki. The invading detachment is said to be composed of 3,000 infantry and a force of artillery. No official confirmation of the report has been received.

A German airplane bombed various parts of Petrograd. Three persons were killed and five wounded. The material damage was unimportant.

According to diplomatic documents, Austria and Germany, as early as Aug. 21, 1914, demanded that Russia should declare war on Russia, guaranteeing her against attack by Bulgaria and Austria and her Rearbale and the smoke valley.

## Getting Ready For Production Campaign

In its production program for greater production, the provincial government has divided the province into sixteen districts. In each district it has appointed a man, who will have in charge the production in that district and will come in close contact with the farmer, and will meet the thousands of small problems which are preventing additional production. The men to be selected will be from the agricultural college and others who are thoroughly acquainted with the problem on the farm.

There will be a man in charge of greater production in each one of these districts. His business will be to get into touch individually with the farmers in that district.

He will locate the idle land and ascertain if it can be leased, and if it can, we shall try to get in touch with men who will lease it. The scheme will be under the management of C. Meyer, head of the schools of agriculture.

In addition to that, those men shall assist as far as possible in financing the farmers who need small assistance. The department has already secured from the banks the promise that they will give assistance in greater measure this year than ever to farmers who are producing. It will beget of the work of these inspectors of divisions to get the producer in touch with the consumer.

Mr. Marshall said that the members of the Legislature would be expected to act as advisers for the men who were in this arduous work.

## Canadians Should Eat More Potatoes

People who wish to help in food conservation should consider potatoes as a partial substitute for wheat flour. Potatoes are the chief staple of the semi-perishable foods. Canadians do not eat their fair share of potatoes in normal times. We have been largely a wheat and beef and pork consuming people. These staples are now required for overseas and it behooves us to substitute other foods for them whenever possible. We consume, perhaps, two and one-half bushels of potatoes per capita per year, or about one-third of a pound per day—equal to one fair-sized potato. In some European countries one pound per day per capita is consumed, and in some districts four pounds per day, and nearly twenty-five bushels per year.

Canadians have large supplies of potatoes, carrots, onions and turnips and by consuming these vegetables freely, they can economize with bread.

More than 300 ways of cooking potatoes are known. They combine well with many flavors. They can be used to economical advantage with meat and fish, in stews, croquettes, hash, chowders, meat pies, etc. One half a cup of mashed potatoes and two cups of flour make a bread mixture that helps the loaf go farther.

Good cooks know the ways of using potatoes are various—boiled, steamed, fried, baked, baked, fried, hashed brown, creamed, scalloped, stuffed, au gratin and scores of combinations.

Canada has plenty of potatoes and although the price is high compared to normal times, it is not high in comparison with other foods in war time.

## Will Boycott Germans Trade After the War

An overwhelming vote for a resolution warning German business men that an economic combination will be forced against Germany after the war unless the danger of excessive armaments is removed by making the German government a responsible instrument, controlled by the people, was announced by the chamber of commerce of the United States at the conclusion of a preliminary canvass of its organization members.

On March 10 British aviators bombed the Daimler motor works at Stuttgart. The official announcement says that the raid was carried out in broad daylight. They also bombed the station and munition factories.

The Germans in their advance in Russia have captured according to the official statement from General Headquarters, 6,000 officers and 87,000 men, 2,400 guns, 5,000 machine guns, thousands of motor vehicles, 800 locomotives and thousands of rail road trucks.

## U.S. Private Routes Enemy Patrol Alone

An American private, with a Norwegian, arriving as a party in a first line trench, routed single-handed a German patrol of 50 men, killing the leader, a Prussian sergeant.

The enemy group, evidently had been instructed to cut the American line, but their curiosity was probably aroused by the silence of the American trench. It is probable they thought these trenches deserted and consequently leaped over the parapet.

The American, aided by cool and accurate shot, had his observations were correct. Then, without challenging, he opened fire. The sergeant dropped at the first shot. The others scampered back through the wire.

An American patrol in No Man's Land heard the firing and opened up, too, on the fleeing Germans. It is believed several of the enemy leaders were wounded, as some equipment found the traces of the flight is covered with blood stains.

## Selecting Farms By Soil Analysis

There are ways when old methods are passing away and the latest thing is the selecting of farms by settlers on the basis of soil analysis. According to the department of colonization and development of the Canadian Pacific Railway Company such an instance recently came to their notice. Soil from western Canada was submitted to Professor Stevens, soil physicist of the State College of Washington, at Pullman, Washington. Professor Stevens' report on this soil should no doubt further encourage settlement in Western Canada. It reads as follows:

"We have analyzed this sample and find that it runs fairly high in lime, very high in potash, phosphorus and in nitrogen; that it has a splendid supply of organic matter and is in the line of physical condition. There is nothing wrong with this soil from the standpoint of crop production, and I am satisfied that it will give splendid results wherever put under cultivation."

## British Gaining In the Holy Land

The British official communication says the British have occupied Hill, 80 miles west of Baghdad, on the Euphrates river, in Mesopotamia, and in Palestine have made a general advance to an average depth of from two to three miles. The communication says:

"Yesterday morning we occupied Hill, on the Euphrates, without opposition. The Turks retired seven miles upstream from Hill toward Samarra."

With regard to Palestine, the communication says: "Early Saturday morning our troops in the west of Jordan valley continued the general advance northward and crossed the Wady El Aujah with slight opposition, and attacked the Turkish position at El Hadyet. Abu Tella, on the high ground five miles west of the Jordan. The position was strongly held, but was captured by 3 o'clock in the afternoon."

"On either side of the Jerusalem-Nablus road, an advance was made on a front of 13 miles to an average depth of two or three miles. On the east we captured Kefr Makel-Telhar and Selaud. The enemy made several attempts to take Telhar. Our troops on the west of Nablus road reached the line of Burj-Dardawi, Atta Ranzil and Deirah Soudan with little opposition."

## Russia and Roumania Make Peace Terms

The conclusion of peace between Russia and Roumania is announced in a Russian wireless despatch received at London. Roumania promises to evacuate all of Bessarabia.

Comment in the German newspapers is severe on Roumania. The Cologne Gazette says: "We hold this enemy firmly in our hands and will not let go until he has done our will, until he has raised what he has sworn."

The Westfälische Zeitung, after saying that Bulgaria and Hungary will benefit still, but Germany bears the main burden of the war against Roumania, and according to recognized international law the latter has the right to help." The newspaper urges Germany to exact a proper war indemnity.

John Dillon, member of parliament for East Mayo, was unanimously elected chairman of the Nationalist party, succeeding the late John Redmond.

## Says Huns Have Route to Persia

"We have acquired a direct free route via Russia to Persia and Afghanistan," says a dispatch from the Wolff bureau, the German semi-official agency. "The announcement of the Wolff bureau, if true, has an important bearing on the situation in Western Asia and possibly even in India."

The peace terms forced upon Russia at first-Litovsk took away from Russia districts in the Caucasus region through which it would be possible for the Germanic allies to gain entrance from the Black sea to Turkey into Persia. Passage through Persia probably would meet with only nominal opposition while the still further advance into Afghanistan would be possible.

Wilson-Pledges U.S. To Help Russia

On the eve of the gathering at Moscow of the Russian congress, President Wilson has sent a message of sympathy to the Russian people, with a pledge that the United States will avail itself of every opportunity in driving out autocracy and replacing Russia in her place in the world with complete sovereignty and independence.

The United States now recognizes no government in Russia, but the President called his message to the American consul at Moscow for delivery to the congress, which is made up of soldiers' and workmen's representatives and speaks for a considerable part of the Russian population.

The commercial agreement between Germany and Russia will contain plans for the construction of a canal which would form the connecting link of a waterway between the Baltic and the Black Sea, according to a Berlin dispatch to the Politiken. The cost is estimated at 20,000,000 marks, and German financiers, it is said, are ready to provide the money.

## HUNS TRY AIR RAID OVER PARIS

Official French statement said that about 60 aeroplanes crossed the French line, some of them being turned back by the barrage. Bombs were dropped on Paris, and the suburbs between 9 o'clock and midnight and several buildings were demolished or set on fire. This was the second attack on Paris of the last few days, 13 persons having been killed and 50 wounded in a raid last Friday night.

## GIRL'S STATEMENT WILL HELP REDCLIFF PEOPLE

Here is the girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank not water and olive oil by the gallon. Nothing helped until I tried Buckthorn bark, glycerine, etc., as mixed in Adler's Oleo SPOONFUL helped me INSTANTLY." Because Adler's is the ENTIRELY ALIMENTARY and it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever used. C. T. Hall, druggist.

## DON'T LEAVE REDCLIFF

Note change of address.

Maskell & Wray  
Opposite Gas Office,  
Third Street.

## NO STATE PURCHASE OF LIQUOR TRAFFIC

According to the Fall Mall Gazette the British government has decided against the state purchase of liquor traffic. The newspaper says an investigation shows the amount of money involved could not be devoted to this purpose under existing circumstances and that an official announcement to this effect may be expected.

Members of Alberta of its national resources, in order that the coal industry particularly might be properly developed, was advocated by J. C. Cole, Grosvenor, in continuing, in the legislative Friday afternoon, the debate on the conference of the western premiers at Ottawa.

THE STONER AGENCIES, REDCLIFF THIRD ST.

The Japanese consul-general, in the course of a lecture delivered in Sydney, N.B.W., said that Japan, like New Zealand and Australia, strongly desires that the German colonies shall not be restored to Germany, after the war, as, if they were, the peace of the Pacific would not be regarded as secure.
